Average: \$22,500.00 Count: 4 Sum: \$90,000.00

The screenshot displays the Microsoft Excel interface. The ribbon at the top shows the 'Home' tab selected, with the 'Number' group active. The 'Accounting' format is chosen from the dropdown menu. A red arrow points to this dropdown.

The worksheet contains a table with financial data. The formula bar shows the formula `=MAX(D4:D20)`. The data is as follows:

	A	B	C	D	E
13	JLoka-10	JLoka-10	\$ 550.00	60.5	\$ 33,275.00

A red arrow points to the 'D' column header, indicating the range D4:D20. Another red arrow points to the 'General' option in the 'Format Cells' dialog box's 'Category' list.

The 'Format Cells' dialog box is open, showing the 'Number' category selected. The 'Sample' field displays '90'. Below the sample, it states: "General format cells have no specific number format."

The status bar at the bottom indicates 'Ready' and 'Accessibility: Good to go'.

To use the currency formatting:

The screenshot shows the Microsoft Excel interface with the 'Home' tab selected. The ribbon includes options for Font, Alignment, Number, Styles, Cells, and Editing. In the 'Number' group, the 'Accounting' format is selected, indicated by a red arrow. The formula bar shows the value '100'. The worksheet, named 'Sheet1', contains a table titled 'Employee Payroll' with columns: First Name, Last Name, Hourly Wage, House Worked, and Pay. The 'Hourly Wage' column is highlighted with a red box, and the values are formatted with the Accounting format, showing dollar signs and two decimal places. The status bar at the bottom indicates 'Average: \$400.00 Count: 13 Sum: \$5,200.00'.

Getting the data using the MID-Function:

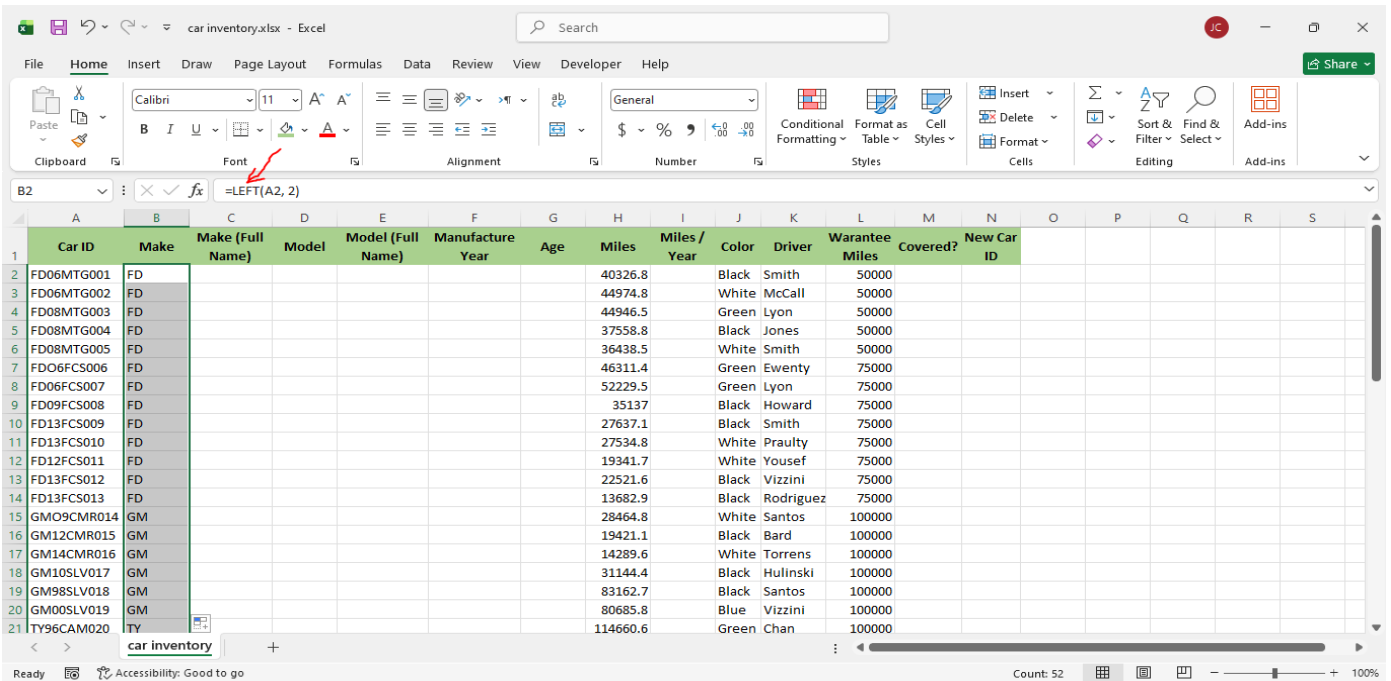

The screenshot shows the Microsoft Excel interface with the 'Home' tab selected. The ribbon includes options for Font, Alignment, Number, Styles, Cells, and Editing. In the 'Font' group, the 'MID' function is highlighted with a red arrow. The formula bar shows the formula '=MID(A2, 5, 3)'. The worksheet, named 'car inventory', contains a table with columns: Car ID, Make, Make (Full Name), Model, Model (Full Name), Manufacture Year, Age, Miles, Miles / Year, Color, Driver, Warantee Miles, Covered?, and New Car ID. The 'Make' column is highlighted with a red box, and the values are extracted from the 'Make (Full Name)' column using the MID function. The status bar at the bottom indicates 'Count: 52'.
