

To add data validation for a specific column:

[illegible]

Excel window showing the Data Validation dialog box (Input Message tab) applied to the Income column (H2:H19). The dialog box is titled "Data Validation" and has tabs for Settings, Input Message, and Error Alert. The Input Message tab is selected, showing the "Show input message when cell is selected" checkbox checked. The "When cell is selected, show this input message:" section contains the following text:

Title: Income amount
Input message: You must enter a value \$15000 or higher

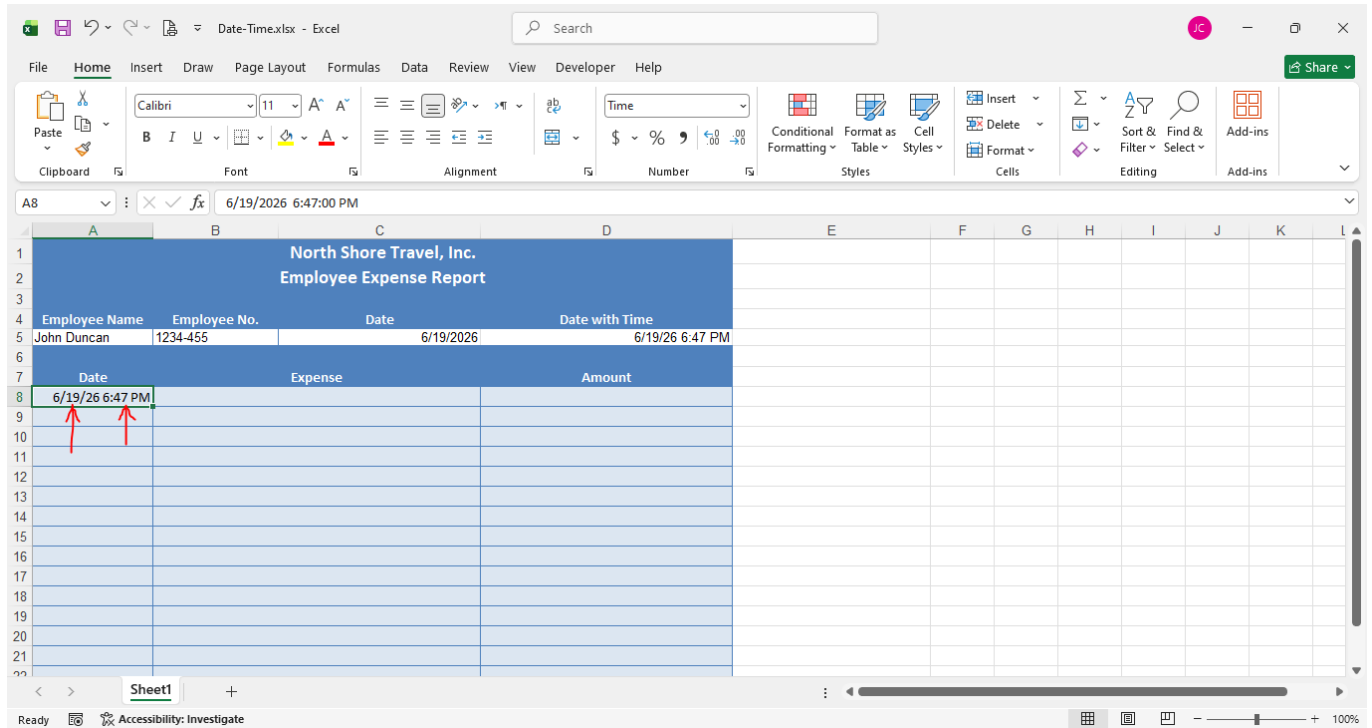

The background spreadsheet shows a list of people with their contact information and annual trips. The Income column (H2:H19) contains values ranging from \$30,000 to \$120,000. The status bar at the bottom indicates the average is \$47,667, count is 18, and sum is \$858,000.

Excel window showing the Data Validation dialog box (Error Alert tab) applied to the Income column (H2:H19). The dialog box is titled "Data Validation" and has tabs for Settings, Input Message, and Error Alert. The Error Alert tab is selected, showing the "Show error alert after invalid data is entered" checkbox checked. The "When user enters invalid data, show this error alert:" section contains the following text:

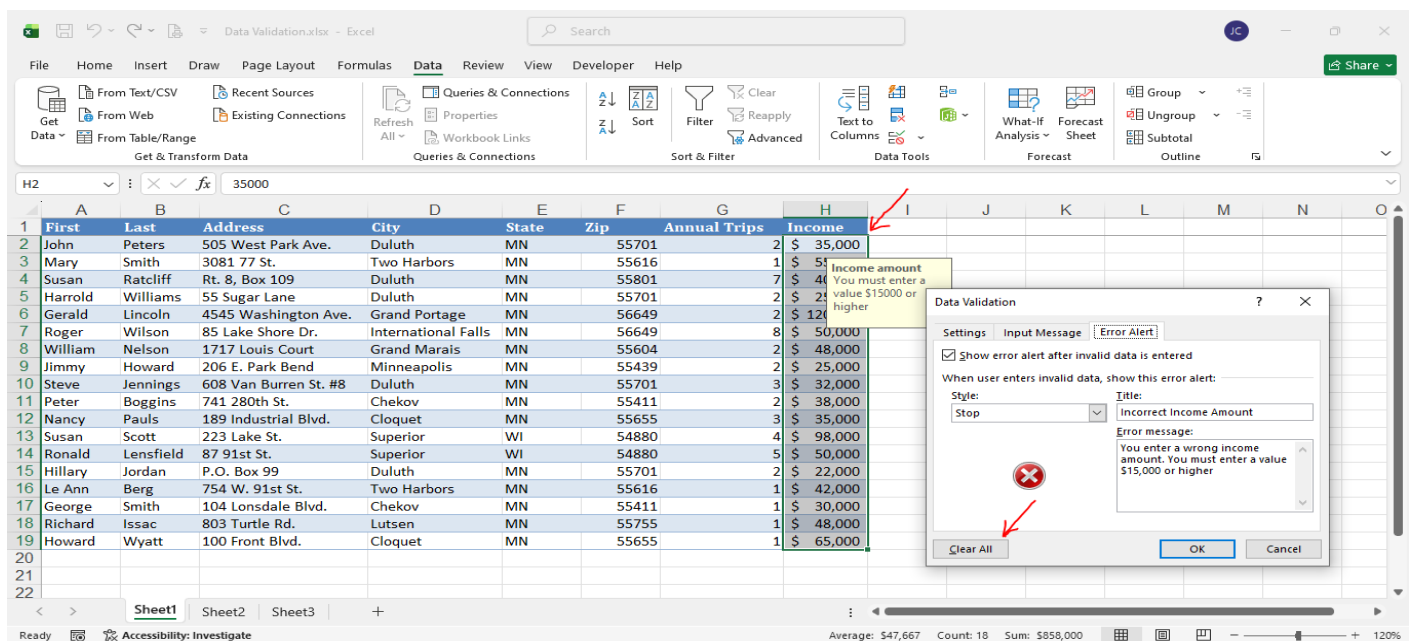

Style: Stop
Title: Incorrect Income Amount
Error message: You enter a wrong income amount. You must enter a value \$15,000 or higher

The background spreadsheet is the same as the previous image. The status bar at the bottom indicates the average is \$47,667, count is 18, and sum is \$858,000.

To add current date (CTRL+;) and to add the current time (SHIFT+CTRL+;):

To clear the data validation:

To select the entire column (CTRL + SHIFT + DOWN ARROW):

Ready Accessibility: Good to go Average: \$307 Count: 199 Sum: \$61,075 100%

To freeze the top row from the View-Tab:

Ready Accessibility: Good to go 100%
